

This document and any attachments contain information that is proprietary, confidential, commercially sensitive, and/or competitive, and is protected from public disclosure pursuant to Tex. Gov't Code Ann. §§ 552.101, 552.104, 552.110(a)-(b), and any other applicable exception listed in Subchapter C of Chapter 552 of the Texas Government Code, Tex. Bus. & Com. Code Ann. § 15.10(i), and all other applicable statutes, rules, and regulations.

Hendrick Health

Quarterly Report for Quarter 2 of Fiscal Year 2025

Reporting Period: 12/1/24 – 2/28/25

Submission Date: May 28, 2025

Certificate of Public Advantage ("COPA")

Quarterly Performance Report for Quarter 2 of Fiscal Year 2025

This Quarterly Performance Report (the “Report”) is submitted pursuant to the revised Terms and Conditions of Compliance (effective October 1, 2023) governing the Certificate of Public Advantage (“COPA”) issued to Hendrick Medical Center *d/b/a* Hendrick Health on October 2, 2020 (“COPA Approval Date”) with respect to the purchase of substantially all of the assets used in the operation of Abilene Regional Medical Center (“ARMC”, subsequently to be known as “Hendrick Medical Center South” or “HMC-S”) (collectively, the “Merger”). The underlying transaction closed on October 26, 2020 (the “Transaction Closing Date”). Information related to Hendrick Medical Center and Hendrick Medical Center South are collectively referred to herein as “Hendrick Health”.

This Report reflects the performance of HMC and HMC-S (formerly ARMC) for the second quarter of fiscal year 2025 (“Quarter 2 FY2025” or “Second Quarter FY2025”), the period of December 1, 2024 to February 28, 2025. Where applicable, this Report includes information or refers to information provided in the Baseline Performance Report that was submitted to HHSC on January 15, 2021, and reflects the pre-Merger baseline period of FY2018 – FY2020 (the “Baseline Performance Report”).

Report Contents

I.	Abbreviation Key	6
II.	Quarterly Performance Report – Quarter 2 FY2025	7
A.	Summary of Requirements	7
B.	Description of Process	7
III.	Terms and Conditions for COPA-Approved Health System	8
A.	Quality	8
1.	Evidence demonstrating how health care quality has improved.	8
2.	Inpatient and outpatient numbers before the merger and the current quarter.	9
3.	Patient readmission numbers before and after the merger.	11
4.	Any association between increased patient volumes and better patient outcomes.	12
5.	Explanation of how patient services were optimized since the merger and how service optimization impacted patient care.	14
6.	A summary of quality improvement measures for each hospital to address performance in meeting quality performance standards.	15
B.	Efficiencies	17
7.	A description of steps taken to reduce costs and improve efficiency.	17
8.	Data regarding emergency department closures since the merger.	18
9.	A description of how the hospitals have expanded telehealth and an explanation of how the expansion has improved access to healthcare for the rural community by: (1) Providing data demonstrating the expansion of telehealth and technology; and (2) Explaining how the expansion of telehealth and technology improved the hospitals' ability to treat a larger patient population.	18
10.	Progress reports regarding the adoption of any new IT Platform.	20
11.	A description of any reduction in workforce since the issuance of the COPA based on occupation, i.e. doctors, nurses, support staff, etc. Include the numbers and job titles of any position eliminated, the total number of employees before and after the reduction, and any impact the reduction has on patient service delivery.	21
12.	Data and financial reports demonstrating savings from the reduction in duplication of resources.	22
13.	Data showing the coordination of services before and after the merger and evidence demonstrating how cost savings will be reinvested locally.	22
14.	Data demonstrating reinvestment in the combined healthcare system.	23
15.	Data and financial reports reflecting the savings in each area referenced above.	23
16.	Operating deficiencies that existed before the merger and how any operating efficiencies have been achieved since the merger.	24
17.	An explanation of how any operating efficiencies achieved have impacted healthcare service delivery, patient care, staff, the local community, and counties served.	25
18.	Data on the pricing, quality, and availability of ancillary health care services.	28

19.	Data on the pricing, quality, and availability of hospital-based physician services.	32
20.	Data on the consolidation of clinic services, identifying the types of services per county.	34
21.	Data indicating how the consolidation of these services improved patient outcomes.	34
C.	Accessibility	35
22.	A list of the severe risks described in the application facing Taylor County and an explanation of how the merger led to the mitigation of these risks.	35
23.	A description of each patient service that changed or has been discontinued since the merger and an explanation of the impact to patient care.	41
24.	Data illustrating the impact to patient wait times, including emergency department wait times, before and after the merger.	43
25.	Data demonstrating any expansion in service delivery since the merger.	45
26.	Data and financial reports regarding infrastructure investment, capital expenditures, and operating costs since the merger.	45
27.	Evidence of any expansion of clinical services.	48
28.	A copy of each hospital's charity care policy, identifying any changes to the policy in the previous quarter.	48
29.	The number of patients enrolled in each hospital's charity care program in the past quarter.	48
30.	Data and financial reports for charity care services provided by each hospital in the previous quarter.	49
31.	Data demonstrating clinical integration between facilities and providers and whether such integration led to cost savings or a reduction in medical errors.	50
32.	A description of how the merger has impacted rural healthcare in the hospitals' 24-county service area during the previous quarter, including any reduction in services.	52
33.	A list of health plans each hospital contracted with before the merger, an explanation of any change to the accepted health care plans after the merger, and a list of health plan contracts terminated since the merger.	53
34.	Data identifying changes to service levels at the hospitals and at other facilities, including service levels available to the public and any reduction in service levels available to the public.	53
35.	Data illustrating the organizations' payment models.	55
36.	Data demonstrating the payment models established since the merger in comparison to payment models before the merger.	55
D.	Competition	56
37.	Data demonstrating the merger did not reduce competition among physicians, allied health professionals, other health providers, or any other persons providing goods and services with the hospitals.	56
38.	Evidence of how patient choice is being preserved.	62
39.	Evidence reflecting efforts to bring additional jobs to the area.	62
40.	Any contracted services that have changed since the last report, with an explanation for each change.	63

41.	Data illustrating physician contracts for each county in the region specifying the physician specialty or practice area for each contract.	63
E.	Other Requirements	65
42.	Any minutes or notes of meetings regarding the COPA and the portion of each hospital's governing body meeting minutes that discuss the COPA.	65
43.	Any healthcare-related service contract changes in the previous quarter and the explanation for the change.	65
44.	The number of physicians, allied professionals, and other health care providers providing medical services that have privileges to practice at the hospital.	65
45.	Information on additional investments regarding infrastructure, capital expenditures, and operating costs and how this affected patient care outcomes, population access to health care, and prevention services.	66
IV.	Attachments	67

I. Abbreviation Key

Abbreviation	Full Name
ARMC	Abilene Regional Medical Center
CDM	Charge Description Master
CMS	Centers for Medicare & Medicaid Services
COPA	Certificate of Public Advantage
HH	Hendrick Health
HMC	Hendrick Medical Center
HMC-S	Hendrick Medical Center South (formerly ARMC)
HHSC	Texas Health and Human Services Commission

II. Quarterly Performance Report – Quarter 2 FY2025

A. Summary of Requirements

As required by Texas Health and Safety Code § 314A.103, Texas Admin. Code § 567.34, and the revised COPA Terms and Conditions of Compliance, Hendrick Health must submit quarterly and annual reports regarding the Merger.

This Report and the associated attachments are based directly on the requirements listed in the guidance documents published by HHSC: “Certificate of Public Advantage Terms and Conditions of Compliance for Hendrick Health System” effective October 1, 2023.

B. Description of Process

Hendrick Health’s senior management team, assisted by outside consultants and counsel, worked closely with relevant department heads to collect, analyze, and prepare for submission the information and data detailed in the HHSC guidance documents. Leaders of each department gathered the required information and validated the summaries and responses included in this Report to ensure accuracy and completeness to the fullest extent possible.

Name	Position
Brad D. Holland, FACHE	President and Chief Executive Officer
Robert Wiley, M.D.	Hendrick Health Vice President, Chief Medical Officer and Chief Quality Officer
Jeremy Walker	Hendrick Health Vice President, Chief Financial Officer
Bradley Benham, Esq.	Hendrick Health Vice President, Foundation
Susan Greenwood, BSN, RN, FACHE	Hendrick Health Vice President, Chief Nursing Officer
Christie Eckhardt, JD	Hendrick Health Vice President, General Counsel
Susan Wade, FACHE	Hendrick Health Vice President, Abilene Market Chief Operating Officer
Kirk Canada, PT, ScD, DPT	Hendrick Health Vice President, Chief Operating Officer
Courtney Head	Hendrick Health Vice President, Human Resources
Brian Bessent, FACHE	Hendrick Health Vice President, Chief Strategy and Experience Officer
Judy LaFrance, MSN, RN, NE-BC	Chief Administrative Officer, Hendrick Medical Center South
Heater Ray, DNP, RN, CNRN	Hendrick Health Assistant Vice President, Abilene Market Chief Nursing Officer
Jesiree Driskell	Hendrick Health Assistant Vice President, Strategic Communication and Digital Experience
Chris Ford, FACHE	Hendrick Health Assistant Vice President, Support Services
Tave Kelly	Hendrick Health Assistant Vice President, Revenue Cycle
Adam Wood	Hendrick Health Assistant Vice President, Material Management
Mark Edwards	Hendrick Health Assistant Vice President, Information Technology
Mark Huffington	Hendrick Health Assistance Vice President, Analytics
Treva Broderick	Hendrick Health Assistant Vice President, Clinical Services
Tim Riley	System Integration Consultant

III. Terms and Conditions for COPA-Approved Health System

A. Quality

1. Evidence demonstrating how health care quality has improved.

- CMS Star Rating:** The most recent CMS Star Rating is from July 2024. HMC (which includes HMC-S) earned an overall rating of three stars (see **Table 1a** below). The CMS Star Rating summarizes a variety of measures across five areas of quality (Mortality, Safety of Care, Readmission, Patient Experience, and Timely and Effective Care) into a single star rating. The time periods covered by each measure vary. For the July 2024 Star Rating, the data collection period for some measures goes back to April 1, 2019. Other measures have more recent data, going up through March 31, 2023. As noted in prior reports, CMS made significant changes to its Star Rating methodology and reporting schedule between the 2020 and April 2021 ratings. Because various measures are now weighted differently, these changes in methodology make it difficult to compare the April 2021 and beyond Star Rating to historical ratings.

Table 1a: Overall CMS Star Ratings¹

Location	Pre-Merger Period						Post-Merger Period					
	FY2018		FY2019		FY2020		FY2021		FY2022	FY2023	FY2024	
	Jan	July	Mar	July	Jan	Aug	Apr	July	July ²	July	July	
HMC	4	4	3	3	5	5	4	4	4	3	3	
ARMC (HMC-S)	3	3	2	2	2	2	4	4				

- Leapfrog Hospital Safety Grades:** HMC earned an “A” and HMC-S a “B” in the Spring 2025 Leapfrog Hospital Safety Grade release (see **Table 1b** below). Leapfrog evaluates performance by measures that gather data from various sources, including CMS and the Leapfrog Hospital Survey. The time periods covered by each measure may vary as well. For example, several measures from the most recent report include CMS data going back to July 1, 2021 and the 2024 Leapfrog Hospital Survey.

¹ Source: Care Compare: <https://www.medicare.gov/care-compare/#search>.

² As a result of the Merger in October 2020, legacy ARMC’s (now HMC-S) CMS Certification Number (“CCN”) was retired, therefore, no ARMC data will be reported in CMS’s database. Going forward, all data on CMS’s website for Hendrick Medical Center (1900 Pine Street) is combined performance for both HMC and HMC-S.

Table 1b: Leapfrog Safety Grades³

Location	Pre-Merger Period						Post-Merger Period								
	FY2018		FY2019		FY2020		FY2021		FY2022		FY2023		FY2024		FY2025
	Spring	Fall	Spring	Fall	Spring	Fall	Spring	Fall	Spring	Fall	Spring	Fall	Spring	Fall	Spring
HMC	A	A	A	A	A	B	B	B	A	B	C	B	B	B	A
ARMC (HMC-S)	C	C	C	B	C	C	C	NG ⁴	C	C	C	C	C	C	B

- Patient Admissions & Medicare Cost Report Data: Inpatient admissions and outpatient volumes are provided below in **Item 2** of this Report. Hendrick Health most recently provided its 2020 Medicare Cost Report and will provide subsequent cost reports once it receives final settlement with a Notice of Program Reimbursement (“NPR”).
- Patient Experience Ratings: Using the CMS data reported in February 2025 (data reporting period of April 1, 2023 through March 31, 2024), HMC and HMC-S (combined performance) attained a rating of three stars on the Hospital Consumer Assessment of Healthcare Providers and Systems (“HCAHPS”) survey of patient satisfaction (see **Table 1c** below).

Table 1c: Patient Experience Rating Results⁵

Location	Pre-Merger Period												Post-Merger Period																					
	FY18				FY19				FY20				FY21				FY22				FY23				FY24				FY25					
	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2				
HMC	3	3	3	4	3	3	3	3	4	3	5	3	3	3	3	3	3	3	3	3	3	3	3	3	3	3	3	3	3	4	4	3	3	3
ARMC (HMC-S)	3	3	3	3	3	3	3	3	3	3	2	3	3	3	3	3																		

2. Inpatient and outpatient numbers before the merger and the current quarter.

- Inpatient Volumes⁶: Hendrick Health’s inpatient admissions increased from 8,154 in Quarter 1 FY2025 to 8,278 in Quarter 2 FY2025. **Table 2a** shows quarterly inpatient admissions for HMC and HMC-S. As mentioned in previous reports, HMC and legacy ARMC (HMC-S) experienced significant declines in patient volumes in 2020, largely as a result of the COVID-19 pandemic, followed by gradual increases toward historical rates. Volume numbers are shown on a combined basis for

³ Source: Leapfrog Research Group: <https://ratings.leapfroggroup.org/>.

⁴ Legacy ARMC received an overall designation of “Not Graded” as there was no data available for Leapfrog to use to complete a Safety Grade because ARMC/CHS chose not to report CMS data during the COVID waiver period in 2020.

⁵ Source: HCAHPS Patient Experience Survey: [HCAHPS Survey Results](#). Due to the Merger, from Q4 FY2021 and forward, all data on CMS’s website for Hendrick Medical Center is combined performance for both HMC and HMC-S.

⁶ Prior to the Transaction Closing Date, ARMC operated on a calendar fiscal year of January 1 – December 31. Post-Merger, ARMC’s fiscal year was adjusted to reflect Hendrick Health’s fiscal year of September 1 – August 31. As such, ARMC’s historical volume information has been adjusted to reflect a fiscal year of September 1 – August 31 for the purposes of this Report.

Hendrick Health post-Merger (Quarter 2 FY2021 and beyond) as both hospitals are reported under a single National Provider Identifier (“NPI”).

Table 2a: Inpatient Admissions

- Outpatient Volumes⁷:** Hendrick Health’s outpatient registrations decreased from 80,264 in Quarter 1 FY2025 to 72,482 in Quarter 2 FY2025. **Table 2b** below displays the quarterly outpatient volumes for HMC and HMC-S. Volume numbers are shown on a combined basis for Hendrick Health post-Merger (Quarter 2 FY2021 and beyond).

⁷ See Footnote 6.

Table 2b: Outpatient Registrations⁸

3. Patient readmission numbers before and after the merger.

- Patient Readmission Numbers:** As described in previous Performance Reports, the reported readmission rates during the Baseline Period included all unplanned readmissions⁹ within 30 days of a hospital stay or inpatient procedure and are not adjusted to reflect underlying differences in acuity or comorbidities. CMS typically reports readmission data on an annual basis, in July. See Table 3.

⁸ The calculation of outpatient registrations at HMC-S was slightly revised from the Baseline Performance Report to be more consistent with the calculation of outpatient registrations at HMC starting in Quarter 3 FY2020 (see dotted line on Table 2b delineating the time the methodology was changed). Post-Merger, Hendrick Health aligned the calculation of outpatient registrations at HMC-S (legacy ARMC) to the HMC methodology, which excludes clinic and ED visits.

⁹ Per CMS, the overall rate of unplanned readmission after discharge from the hospital (also called “hospital-wide readmission”) focuses on whether patients who were discharged from a hospital stay were hospitalized again within 30 days. All medical, surgical and gynecological, neurological, cardiovascular, and cardiorespiratory hospital patients are included in this measure. Patients may have returned to the same hospital or to a different hospital. They may have been readmitted for a condition that is related to their recent hospital stay, or for an entirely different reason.

Table 3: Patient Readmissions^{10, 11}

4. Any association between increased patient volumes and better patient outcomes.

[This Item contains proprietary, competitively sensitive information redacted from the public version.]

- Protocols and Treatments:** Continuing with previous reporting, Hendrick Health strives to keep patients in their local community with evidence-based, high-quality care. During Quarter 2 FY2025, Hendrick Health continued to face capacity limits at times. Regional transfer challenges have improved at both campuses. Having both campuses under the same operation has helped meet the community’s need for increased access to high-quality healthcare. If there is an issue at one campus (e.g., equipment being repaired), there are resources available at the other campus. Uniform oversight of both campuses has led to efficient staffing and direction of patients to the best care venue. Hendrick Health continues to further coordinate practices across both campuses to the benefit of patients in the community. For example, staff “float” between HMC and HMC-S, when needed, to ensure optimized staffing levels across the Abilene market. On the Hendrick Health daily huddle, which includes key leadership and staff from both HMC and HMC-S, capacity

¹⁰ Source: Care Compare “Unplanned Hospital Visit” benchmark ([Medicare.gov](https://www.medicare.gov)). The following represents the reporting periods by fiscal year: 7/1/2016 to 6/30/2017 for FY2018, 7/1/2017 to 6/30/2018 for FY2019, 7/1/2018 to 6/30/2019 for FY2020, a partial year 7/1/2019 to 12/1/2019 for FY2021, 7/1/2020 to 6/30/2021 for FY2022, 7/1/2021 to 6/30/2022 for FY2023, and 7/1/22 to 6/30/23 for FY2024. CMS typically updates this data in July of each year. The graphic generally applies the July rate to the fiscal year in which it was released.

¹¹ As a result of the Merger in October 2020, legacy ARMC’s (now HMC-S) CMS Certification Number (“CCN”) was retired, therefore, no data would be in CMS’s database to report for legacy ARMC. Going forward, all data on CMS’s website for Hendrick Medical Center (1900 Pine Street) is combined performance for both HMC and HMC-S.

and staff issues are discussed, and often resolved as relevant stakeholders are part of the call. The same is true with other resources or concerns, such as equipment or technological problems, safety, medication shortages, and Joint Commission readiness. Overall, Hendrick Health is better together, due to the ability to share resources and work together to resolve barriers to delivering high-quality care at both campuses.

- Combined Quality of Care Committees: Hendrick Health believes its larger, post-Merger combined medical staff has led to better planning and improvement in system-wide mechanisms for quality of care. Hendrick Health has further coordinated and unified its practices and processes in the emergency departments at HMC and HMC-S. In Quarter 2 FY2025, Hendrick Health continued to utilize its combined medical staff, nursing workforce, and ancillary staff to establish and execute various integrated committees, a few of which are described below, to improve the quality of care for the community and to strive toward integrated processes and procedures.
 - The Evidence-Based Medicine Committee continued its review of current order sets and protocols for the combined campuses for a number of different services/procedures.
 - The Patient Safety Committee continued to meet monthly to discuss and examine current safety initiatives, sentinel event alerts, patient falls, and concerns regarding restraints, suicide risk, and emergency detention orders. The Patient Safety Committee and the Multi-Campus Fall Prevention Task Force have worked to streamline the process for when falls occur across the system, creating an algorithm to help educate staff on the process. Patient safety review included analysis of reported events, root cause data, and safety rounds.
 - The consolidated members of the Quality Council and the Physician Review Committee continued reviewing and addressing various system-wide quality of care concerns related to procedural and provider issues and initiatives. With combined medical staff membership, perspectives on processes and standards of care allow for insightful discussions with increased involvement in decision-making for the organization.
 - The Quality Council includes leaders from across the system and focuses on quality of care concerns, performance improvement projects, and data from regulatory-required and high-impact monitoring. In Quarter 2 FY2025, the committee's process of receiving and sharing data from departments and programs from both campuses has continued, and templates have been provided for continuity and clarity of reported data. The focus of this committee continues to include a close watch on the system quality goals. Additional efforts included: improved medication teaching, identifying high risk patients for readmission using the LACE score, and consistent evidence-based practices to manage central lines and foley catheters.
 - Joint market perception of care and joint patient safety meetings continued. These meetings involve efforts between HMC and HMC-S to identify best processes, root cause analyses, and potential patient safety issues. Calls are conducted twice daily between HMC and HMC-S to prevent holds in the emergency departments and to address staff sharing to improve capacity across the system.

- Hendrick Health’s Patient Experience Committee continued to meet regularly. This committee is comprised of executive leadership and key physicians to help drive strong patient experience in the emergency department and on the inpatient units.

5. Explanation of how patient services were optimized since the merger and how service optimization impacted patient care.

- After the Transaction closed in October 2020, Hendrick Health immediately began the process of evaluating opportunities across the combined system with the goal of optimizing patient services and enhancing the overall patient experience. During the Second Quarter FY2025, Hendrick Health implemented or continued the following initiatives:
 - Continued improvement of patient care through upgrading technology and replacing older equipment.
 - Continued to address capacity and staffing limitations. As previously reported, Hendrick Health has relieved capacity by transferring patients between campuses. The community now has increased access to care when they may otherwise have been waiting at one of the campuses or traveling outside the area for care.
 - Joint market perception of care and joint patient safety meetings continued. These meetings involve efforts between HMC and HMC-S to identify best processes, root cause analyses, and potential patient safety issues. Calls are conducted twice daily between HMC and HMC-S to prevent holds in the emergency departments and to address staff sharing to improve capacity across the system.
 - Hendrick Health continued with regular Patient Experience Committee meetings. This committee is comprised of executive leadership and key physicians to help drive strong patient experience in the emergency department and on the inpatient units.
 - Clinical integration and physician integration team meetings continued to ensure all areas of the Abilene market (HMC and HMC-S) are continuously reviewed for best practices, coordinated efforts, and streamlined processes, policies, procedures, etc.

- The Risk/Safety “on call team” continued efforts to field calls 24/7 regarding patient safety and risk management issues, including the standardized approach to end of life decision-making consistent with Texas law, rules, and regulations.
- Hendrick Health continued to optimize and enhance the patient experience for pharmacy services with a number of previously reported efforts, including continuation of meds to beds program, MedAssist program to provide a supply of medication to patients identified by case management as unfunded or underinsured, and opening of an outpatient pharmacy at HMC-S.

6. A summary of quality improvement measures for each hospital to address performance in meeting quality performance standards.

- In Quarter 2 FY2025, Hendrick Health continued pursuing its quality goals, which were developed with input from the system-wide Quality Council. The fiscal year 2025 goals include:
 - Inpatient 30-Day Readmission Reduction: Observed Rate \leq peer in 4 of 6 measures, which include:
 - Acute Myocardial Infarction (“AMI”)
 - Chronic Obstructive Pulmonary Disease (“COPD”)
 - Heart Failure (“HF”)
 - Pneumonia (“PN”)
 - Coronary Artery Bypass Graft (“CABG”) Surgery
 - Elective Primary Total Hip Arthroplasty and/or Total Knee Arthroplasty (“THA”/“TKA”)
 - HAC Reduction Domain 2 HAI SIRs: Achieve \leq 1.00 in 4 of 5 underlying measures, which are:
 - Central Line Associated Bloodstream Infection (“CLABSI”): 1.00 or less
 - Catheter-Associated Urinary Tract Infection (“CAUTI”): 1.00 or less
 - Surgical Site Infection (“SSI”): 1.00 or less
 - Methicillin-Resistant Staphylococcus aureus Bacteremia (“MRSA”): 1.00 or less
 - Clostridium Difficile Infection (“CDI”): 1.00 or less
 - HCAHPS: Care Transition – Understood Purpose of Medications: \geq 64% (CMS 85th percentile)
 - Falls with Serious Injury (AHRQ: IP/OBS per 1000 Occupied Beds): \leq 0.0744
 - PSI-10: Postoperative Acute Kidney Injury Requiring Dialysis (per 1000 eligible discharges): \leq 1.57
- In establishing and working toward the goals in these key areas, Hendrick Health continues to work collaboratively across HMC and HMC-S to drive quality improvement performance for the system.

Hendrick Health tracks these quality measures internally on a continual basis, to develop strategies and understand current performance.

- Quality measures for CMS Star Rating, Leapfrog Safety Grades, Patient Experience, and Readmissions are summarized below in **Table 6**.

Table 6: Hendrick Health Summary of Quality Measure Performance

Quality Metrics	Page Ref.	Post-Merger													
		FY2022				FY2023				FY2024				FY2025	
		Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2
CMS Star Rating, HMC	Pg. 8	Not Applicable (rating to be released in Q3)				4				3				3

Outpatient Volumes, HMC-S ¹⁴	Pgs. 10-11														
Patient Readmissions, HMC	Pgs. 11-12	14.4% (CMS update in July 2022 – applied the July rate to the fiscal year in which it was released)				13.6% (CMS update in July 2023 – applied the July rate to the fiscal year in which it was released)				14.6% (CMS update in July 2024 – applied the July rate to the fiscal year in which it was released)				Update expected in July 2025	
Patient Readmissions, HMC-S	Pgs. 11-12														

¹³ HMC-S will resume reporting Leapfrog data in 2022. When a new Safety Grade is released for HMC-S, it will be reflected in a future quarterly report.

¹⁴ The calculation of outpatient volumes at HMC-S was revised starting in Quarter 3 FY2020 to align with Hendrick Health's reporting methods.

B. *Efficiencies*

7. A description of steps taken to reduce costs and improve efficiency.

- *Steps Taken to Reduce Costs*: Hendrick Health continues to adhere to the structured process, as outlined in previous Performance Reports, to reduce costs and improve efficiency. In Quarter 2 FY2025, Hendrick Health undertook additional steps to reduce costs and improve efficiency:
 - Ongoing process (as outlined in previous Performance Reports):
 - Regular joint Leadership Council meetings to manage and oversee integration activities, including minimizing costs and realizing efficiencies.
 - Routine meetings of department directors with their counterparts to understand priorities and integration challenges, followed by meetings with their legacy teams to ensure alignment on integration matters.
 - Regular executive leadership meetings to discuss post-Merger integration priorities and initiatives, including how to reduce costs and improve efficiency.
 - Organizational leaders have been prioritizing spending time at both campuses to promote process standardization and teambuilding to improve efficiency.
 - Routine meetings of the Joint Pharmacy and Therapeutics (“P&T”) Oversight Committee continued with representatives from both HMC and HMC-S.
 - Regular Joint Abilene Operations Meetings and Joint Abilene Executive Staff Meetings continued to streamline leadership reporting, communication, and responsibilities across both campuses.
 - An OR/Surgical Committee was created at HMC-S. The committee established a process for evaluating metrics and efficiencies related to surgical services. This committee rolls up to the Medical Advisory Committee at HMC-S, which reports to the Medical Executive Committee for the Abilene community, increasing communication and streamlining processes across both campuses under the same medical model.
 - Engaged a firm to provide a new Policy and Procedure Coordinator to streamline all written policies across the market and to develop a newly revised joint Policy Review Committee.
 - Hendrick Health implemented regular operating reviews for all departments in the Abilene market. Department leadership analyzes efficiencies, expenses compared to budget, and adjusts when necessary to ensure good stewardship of financial and operational resources.
 - The new Hendrick Service Center at the Mall of Abilene allows for the relocation of valuable space to expand clinical services for patients. Hendrick Service Center also enables consolidation of departments for improved operations and efficiencies.

8. Data regarding emergency department closures since the merger.

- Current Emergency Department Locations: During Quarter 2 FY2025, there were no changes in the number of Emergency Departments that Hendrick Health operated. As such, Hendrick Health still operates two Emergency Departments at HMC and one Emergency Department at HMC-S, as reported in the Baseline Performance Report. Each location is listed in Table 8a and Table 8b below.

Table 8a: HMC Emergency Departments

Emergency Department Location	Address	Status
Waters Emergency Care Center (HMC)	1900 Pine Street, Abilene, TX 79601	Open
Hendrick Emergency Care Center Plaza	5302 Buffalo Gap Road, Abilene, TX 79606	Open

Table 8b: HMC-S Emergency Department

Emergency Department Location	Address	Status
Hendrick Emergency Care Center South (HMC-S)	6250 US-83, Abilene, TX 79606	Open

- Emergency Department Closures: Hendrick Health has no plans to close any Emergency Departments as of the date of this Report.

9. A description of how the hospitals have expanded telehealth and an explanation of how the expansion has improved access to healthcare for the rural community by: (1) Providing data demonstrating the expansion of telehealth and technology; and (2) Explaining how the expansion of telehealth and technology improved the hospitals’ ability to treat a larger patient population.

[This Item contains proprietary, competitively sensitive information redacted from the public version.]

- Telehealth: During Quarter 2 FY2025, Hendrick Health provided ambulatory telehealth services, including primary and other non-emergency care services, to 1,859 patients through its virtual care platforms (see Table 9).
- As discussed in the Quarter 3 FY2021 report, effective May 2021, Telehealth Maternal Fetal Medicine (“MFM”) services were added to provide remote MFM evaluation and treatment (including MFM ultrasound) in HMC’s Labor and Delivery department. This continued in Q2 FY2025.

- In Q4 FY2024 Hendrick Health implemented tele-infectious disease services at HMC-S to support Hendrick Health’s employed infectious disease providers and increase infectious disease capacity at HMC-S. This service is available to patients via telehealth and commenced on August 14, 2024.

- Hendrick Health will continue to address how the expansion of telehealth and technology improved the hospitals’ ability to treat a larger patient population in future quarterly reports, as applicable. Future efforts in this regard depend, in part, on new laws, rules, and regulations promulgated since the end of the public health emergency. Volume numbers are shown on a combined basis as both hospitals are reported under a single NPI.
- In Q1 FY2024 Hendrick Health appointed an executive leadership position over Digital Experience to sharpen system focus on: increasing access, improving the health of our community/region, and building community/regional healthcare partnerships. Virtual care will be a key component to furthering Hendrick Health’s goals and priorities throughout the service area.

Table 9: Ambulatory Telehealth Visits – Number of Patients Treated via Telehealth¹⁵

10. Progress reports regarding the adoption of any new IT Platform.

[This Item contains proprietary, competitively sensitive information redacted from the public version.]

- IT Platform:** As reported in prior Performance Reports, HMC and HMC-S completed the planned migration to Allscripts Acute EMR platform (now Altera Digital Health) with a go-live date of June 1, 2021, providing the organization with a single hospital EMR system across both campuses. The single EMR has allowed physicians to document and see results in one system and patients to access one portal, providing greater connected care between facilities. The EMR platform continues to receive system updates every two months for improved regulatory compliance and clinical workflow efficiency.

- Hendrick Health plans to replace the overhead paging system and phone system at HMC-S. This project kicked off in 2024, will provide improved safety features for staff and patients, and is estimated to be completed in 2025.
- The Hendrick Health IT Team continues to update the wireless network infrastructure in the South Medical Office Building, which will provide improved communications for patients and staff.

¹⁵ Hendrick Health does not have access to legacy ARMC historical (FY2020 – Quarter 1 FY2021) telehealth data. Volume data has been updated for Q3 FY23 and Q1 FY24 to account for process changes within Hendrick Clinic’s operations.

11. A description of any reduction in workforce since the issuance of the COPA based on occupation, i.e. doctors, nurses, support staff, etc. Include the numbers and job titles of any position eliminated, the total number of employees before and after the reduction, and any impact the reduction has on patient service delivery.
- As noted in previous quarterly reports, neither HMC nor HMC-S reduced its workforce as a result of the pandemic. Rather, both facilities have experienced increased demand for staff.
 - As of February 28, 2025, Hendrick Health employed 5,005 individuals (see **Table 11** below). Hendrick Health continued to hire additional local staff within the region, as needed, to provide necessary services at HMC-S. For example, in Quarter 2 FY2025, Hendrick Health hired 236 new employees in the Abilene market.
 - To support staffing needs in Quarter 2 FY2025, Hendrick Health contracted with 203 travel healthcare professionals.
 - From Quarter 3 FY2021 forward, employee counts for Hendrick Health (HMC and HMC-S) are reported on a consolidated basis as both hospitals are reported under a single NPI.
 - As noted in previous quarterly reports, Hendrick Health launched its service excellence training program to provide employees with tools to continuously deliver high quality healthcare and patient experience. On May 1, 2023, Hendrick Health rolled out the next phase with commitments to excellence highlighted each week in the daily safety huddle and other meetings. In Q2 FY2025, 281 employees completed the half day service excellence training during orientation.

Table 11: Workforce as of Quarter 2 FY2025¹⁶

Location	Employees as of Transaction Closing Date ¹⁷	Employees as of Q1 FY2021	Employees as of Q2 FY2021	Employees as of Q3 FY2021	Employees as of Q4 FY2021	Employees as of Q1 FY2022
HMC	3,493	3,461	3,547	4,172	4,220	4,356
HMC-S	667	621	607			
Total	4,160	4,082	4,154	4,172	4,220	4,356
Location	Employees as of Q2 FY2022	Employees as of Q3 FY2022	Employees as of Q4 FY2022	Employees as of Q1 FY2023	Employees as of Q2 FY2023	Employees as of Q3 FY2023

HMC-S						
Total	4,937	4,919	4,820	4,890	4,973	4,915
Location	Employees as of Q2 FY2025					
HMC	5,005					
HMC-S						
Total	5,005					

¹⁶ Please note that employee headcount includes employed physicians and advanced practice clinicians.

¹⁷ Please note that employee count as of Transaction Closing Date was slightly inflated, as there were 30 CHS employees included in Hendrick Health's personnel tracking system that were not part of the Merger. As these employees remained with CHS, they were removed from the Hendrick Health personnel tracking system on October 27, 2020.

12. Data and financial reports demonstrating savings from the reduction in duplication of resources.

[This Item contains proprietary, competitively sensitive information redacted from the public version.]

- Hendrick Health intends to continue thoughtfully evaluating opportunities through the post-Merger integration process and will provide updates and estimated cost savings in subsequent reports once more information becomes available.

13. Data showing the coordination of services before and after the merger and evidence demonstrating how cost savings will be reinvested locally.

[This Item contains proprietary, competitively sensitive information redacted from the public version.]

- Pre-Merger Coordination of Services: Please refer to the Baseline Performance Report.
- Post-Merger Coordination of Services: By thoughtfully combining the resources of HMC and legacy ARMC, Hendrick Health intends to better coordinate services, increase efficiencies, and optimize patient care. As of the end of Quarter 2 FY2025, Hendrick Health continued to enhance the coordination of services through the following:
 - **Coordination of Inpatient Capacity**: Hendrick Health faced capacity limits, at both HMC and HMC-S, and relieved capacity by transferring patients to the other campus for care. The community had increased access to care when they may otherwise have been waiting at one of the campuses.
 - **Unified organizational structure**: Hendrick Health continued to streamline the organizational chart across HMC and HMC-S to provide increased integration of staffing, policy/procedures, and processes across both campuses.
 - **Centralized transfer center**: Hendrick Health continued use of its centralized transfer center, developed post-Merger, to better coordinate patient transfer requests from surrounding hospitals. The centralized process allows Hendrick Health to better

coordinate services and access across its campuses as well as increase patient transfers into the system. Below is the count of transfers from the region for Quarter 2 FY2025¹⁸:

- December 2024: [REDACTED]
 - January 2025: [REDACTED]
 - February 2025: [REDACTED]
- **Coordination of additional clinical staffing at HMC-S:** During the Second Quarter FY2025, Hendrick Health contracted with 203 travel healthcare professionals. HMC and HMC-S engaged in significant coordination to ensure traveling nurses and providers were evenly staffed between both campuses. Hendrick Health anticipates additional opportunities to enhance clinical staffing at HMC-S to optimize patient services.
 - **Cost Savings Reinvestment Evidence:** Hendrick Health has continued to experience increased costs due to inflationary pressures consistent with general economic conditions. In addition to the significant increase in expenses due to the COVID-19 pandemic, Hendrick Health has seen costs continue to rise from materials and supplies to capital investment. Despite these financial pressures, Hendrick Health continues to reinvest cost savings, where possible, in various local initiatives outlined herein.

14. Data demonstrating reinvestment in the combined healthcare system.

- **Reinvestment:** As discussed in this Report, the Merger allows for the better coordination of resources and decision-making, resulting in improved efficiency, elimination of waste, and the achievement of cost savings. Hendrick Health is committed to reinvesting these savings in its operations and community, with the goal of improving the overall patient experience and patient care. In Q2 FY2025, Hendrick Health invested approximately \$12.4 million in capital expenditures across both HMC and HMC-S. Included in this amount are various infrastructure updates, equipment, software, etc. Hendrick Health will provide additional examples of reinvestment in the combined health system as they become available.

15. Data and financial reports reflecting the savings in each area referenced above.

[This Item contains proprietary, competitively sensitive information redacted from the public version.]

- **Post-Merger Operating Efficiencies:** After the Merger closed, Hendrick Health developed a process to identify, track, and report data and financial reports reflecting efficiencies achieved post-Merger. In Quarter 2 FY2025, Hendrick Health identified several potential opportunities or initiatives that are likely to generate efficiencies and reduce unnecessary costs, as summarized below.

Hendrick Health intends to continue thoughtfully evaluating ongoing opportunities through the post-Merger integration process and will provide updates and estimated cost savings in subsequent reports once more information becomes available.

16. Operating deficiencies that existed before the merger and how any operating efficiencies have been achieved since the merger.

[This Item contains proprietary, competitively sensitive information redacted from the public version.]

17. An explanation of how any operating efficiencies achieved have impacted healthcare service delivery, patient care, staff, the local community, and counties served.
- Hendrick Health has used current operating efficiencies, including clinical and selling, general, and administrative (“SG&A”) efficiencies, to positively impact healthcare service delivery, patient care, staff, the local community, and counties served. For example, as reported herein:
 - **Combined Quality of Care Committees.** Hendrick Health believes its larger, post-Merger combined medical staff has led to better planning and improvement in system-wide mechanisms for quality of care. Hendrick Health has further coordinated and unified its practices and processes in the emergency departments at HMC and HMC-S. In Quarter 2 FY2025, Hendrick Health continued to utilize its combined medical staff, nursing workforce, and ancillary staff to establish and execute various integrated committees, a few of which are described below, to improve the quality of care for the community and to strive toward integrated processes and procedures.
 - The Evidence-Based Medicine Committee continued its review of current order sets and protocols for the combined campuses for a number of different services/procedures.
 - The Patient Safety Committee continued to meet monthly to discuss and examine current safety initiatives, sentinel event alerts, patient falls, and concerns regarding restraints, suicide risk, and emergency detention orders. The Patient Safety Committee and the Multi-Campus Fall Prevention Task Force have worked to streamline the process for when falls occur across the system, creating an algorithm to help educate staff on the process. Patient safety review included analysis of reported events, root cause data, and safety rounds.
 - The consolidated members of the Quality Council and the Physician Review Committee continued reviewing and addressing various system-wide quality of care concerns related to procedural and provider issues and initiatives. With combined medical staff membership, perspectives on processes and standards of care allow for insightful discussions with increased involvement in decision-making for the organization.
 - The Quality Council includes leaders from across the system and focuses on quality of care concerns, performance improvement projects, and data from regulatory-required and high-impact monitoring. In Quarter 2 FY2025, the committee’s process of receiving and sharing data from departments and programs from both campuses has continued, and templates have been provided for continuity and clarity of reported data. The focus of this committee continues to include a close watch on the system quality goals. Additional efforts included: improved medication teaching, identifying high risk patients for readmission using the LACE score, and consistent evidence-based practices to manage central lines and foley catheters.

- Joint market perception of care and joint patient safety meetings continued. These meetings involve efforts between HMC and HMC-S to identify best processes, root cause analyses, and potential patient safety issues. Calls are conducted twice daily between HMC and HMC-S to prevent holds in the emergency departments and to address staff sharing to improve capacity across the system.
- Hendrick Health’s Patient Experience Committee continued to meet regularly. This committee is comprised of executive leadership and key physicians to help drive strong patient experience in the emergency department and on the inpatient units.
- **Organization of Patient Services.** After the Transaction closed in October 2020, Hendrick Health immediately began the process of evaluating opportunities across the combined system with the goal of optimizing patient services and enhancing the overall patient experience. During the Quarter 2 FY2025, Hendrick Health implemented or continued the following initiatives:
 - Continued improvement of patient care through upgrading technology and replacing older equipment.
 - Continued to address capacity and staffing limitations. As previously reported, Hendrick Health has relieved capacity by transferring patients between campuses. The community now has increased access to care when they may otherwise have been waiting at one of the campuses or traveling outside the area for care.
 - Clinical integration and physician integration team meetings continued to ensure all areas of the Abilene market (HMC and HMC-S) are continuously reviewed for best practices, coordinated efforts, and streamlined processes, policies, procedures, etc.
 - The Risk/Safety “on call team” continued efforts to field calls 24/7 regarding patient safety and risk management issues, including the standardized approach to end of life decision-making consistent with Texas law, rules, and regulations.
 - Hendrick Health continued to optimize and enhance the patient experience for pharmacy services with a number of previously reported efforts, including continuation of meds to beds program and MedAssist program to provide a supply of medication to patients identified by case management as unfunded or underinsured.
- **Staffing/organizational impact.**
 - Combined Operations and Executive Staff Meetings: Regular Joint Abilene Operations Meetings and Joint Abilene Executive Staff Meetings continued in an effort to streamline leadership reporting, communication, and responsibilities across both campuses.

- Unified Organizational Structure: Hendrick Health continued to integrate the organizational chart across HMC and HMC-S in order to provide increased integration of staffing, policy/procedures, and processes across both campuses.
- Clinical labor float pool: Hendrick Health has continued to develop a pool of shared clinical employees across HMC and HMC-S, i.e., a float pool, to address the staffing needs of each campus. Hendrick Health has relieved capacity by transferring patients between campuses. This allows for more streamlined patient care when patients may otherwise have been waiting or traveling outside the area for care.
- Coordination of additional clinical staffing at HMC-S: During the Second Quarter FY2025, Hendrick Health contracted with 203 travel healthcare professionals. HMC and HMC-S engaged in significant coordination to ensure traveling nurses and providers were evenly staffed between both campuses. Hendrick Health anticipates additional opportunities to enhance clinical staffing at HMC-S in order to optimize patient services.
- **Other community impact.**
 - Hendrick Health continued its support to rural hospitals through affiliation agreements, including assistance with physician recruitment, continuing education opportunities, leadership training and mentoring, staff training opportunities, and program development assistance and advice.
 - Hendrick Health continued to provide ambulatory telehealth services, including primary and other non-emergency care services, to patients in the surrounding area. Telehealth capabilities remain available and are utilized by patients choosing that method of care.
 - Hendrick Health continued with its Patient and Family Advisory Council (“PFAC”) to collaborate with the community to improve each patient’s and family’s experience of Hendrick Health’s services consistent with the organizational mission. PFAC utilizes the experience and skills of patients, families, and caregivers to improve care for all patients. PFAC assists Hendrick Health by identifying strategies to support patients and families, evaluating quality improvement projects, and establishing patient and family-centered care priorities.
 - Hendrick Health continues to focus its efforts on impacting the predominant health needs of the community as identified in the 2022 Community Health Needs Assessment (“CHNA”). Hendrick Health will complete a new CHNA in 2025.
 - Hendrick Health consistently puts on health-related programming for its community. For example, Hendrick Health professionals have participated at trade shows and health fairs, including: Business Expo in Abilene, Spring into Wellness at Texas Tech University Health Sciences Center (“TTUHSC”) Abilene, and the Abilene Black Chamber of Commerce’s Health, Fitness, and Business

EXPO as part of Juneteenth celebrations. Also, Hendrick Cancer Center and the ATEMS High School Student Council put on programming to encourage students to avoid electronic cigarettes and other tobacco-related products. In addition, Hendrick Health’s leadership participates in a number of community-wide initiatives and groups.

18. Data on the pricing, quality, and availability of ancillary health care services.

[This Item contains proprietary, competitively sensitive information redacted from the public version.]

- **Ancillary Health Services Pricing and Availability:** The gross charges¹⁹ for Hendrick Health’s ancillary health services are set forth in the HMC Charge Description Master (“CDM”). Hendrick Health contracts with various commercial health plans, which generally reimburse ancillary health services based on a negotiated fee schedule or percentage discount of gross charges.

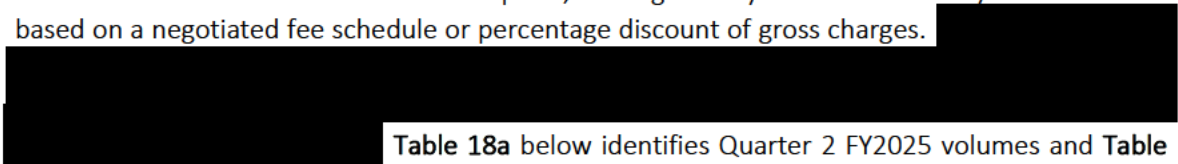

Table 18a below identifies Quarter 2 FY2025 volumes and Table 18b CDM charges for select tests, treatments, or procedures for the following categories of ancillary health services: Laboratory, Imaging, Pharmacy, and Respiratory Therapy. Hendrick Health posts online its listing of charges for each service it provides in compliance with state and federal price transparency laws.²⁰

- Ancillary Health Services Quality:** Table 18c and Table 18d below show the CMS Care Compare and Leapfrog Safety Group quality measures specifically related to ancillary health services for HMC and legacy ARMC (now HMC-S), respectively.

 - As noted in previous Performance Reports, performance for HMC-S is combined with HMC for Use of Medical Imaging measures – MRI Lumbar Spine – Low Back Pain (OP-8) and Abdomen CT – Use of Contrast Material (OP-10). This data is based on claims reviewed by Medicare. The scores for OP-8 (36.4%) and OP-10 (12.2%) below are largely driven by physician determinations. Depending on a patient’s symptoms and presentation, physicians may make the decision to obtain an MRI before deciding on therapy.²⁵
 - The Medication Safety measure (safe medication ordering – use of computerized physician order entry system) is refreshed by Leapfrog in the Spring and Fall. In the Spring 2025 hospital safety grade release, Hendrick Health maintained 100, the highest score possible.²⁶

²⁴ Cells noted under the Pharmacy section with “Not Available” indicate charge codes for the service have been or are in the process of being changed. Once the charge codes are updated, Hendrick Health will provide the volume information.

²⁵ The OP-8 score is from the January 2025 CMS data release and covers the reporting period of July 1, 2022 through June 30, 2023. Hendrick Health was slightly above the national benchmark (36.2%) and below the Texas benchmark (38.9%) for the reporting period. The OP-10 score is from the January 2025 CMS data release and covers the reporting period of July 1, 2022 through June 30, 2023. Hendrick Health was slightly above the national benchmark (5.8%) and Texas benchmark (8.2%) for the reporting period.

²⁶ The measure results are not based on actual patient encounters. Rather, Leapfrog requires hospitals to download a series of test patients and medication orders and to input those test patient/medication combinations into the hospital’s Computerized Physician Order Entry (“CPOE”) system. Hospitals then report to Leapfrog on the alerts their prescribers received at point of order-entry.

²⁷ Information reported by CMS Care Compare, and Leapfrog Safety Group agencies ([Medicare.gov](https://www.medicare.gov) and [Leapfrog Group](https://www.leapfroggroup.org)).

²⁸ Please note that lower values are more favorable for measures OP-8 and OP-10 that are included within Table 18c. OP-8 measures the “[p]ercentage of outpatients with low-back pain who had an MRI without trying recommended treatments (like physical therapy) first.” As CMS explains, “[h]ospitals that are rated well on [OP-8] will have lower percentages. If a percentage is high, it may mean that the facility is doing unnecessary MRIs for low-back pain.” As for OP-10, it measures the “[p]ercentage of outpatient CT scans of the abdomen that were ‘combination’ (double) scans.” CMS explains that “[h]ospitals that are rated well on [OP-10] will have lower percentages. If a percentage is high, it may mean that the facility is doing unnecessary double/combination scans.”

²⁹ Please note that Leapfrog does not publicly provide past or historical Hospital Safety Grade reports on its website. As such, hospital scores on the underlying measures, such as “Safe Medication Ordering,” are not available for FY2018, FY2019, or Spring of FY2020.

³⁰ See Footnote 28.

³¹ [OP-8] Measure not reported for FY2021 Q4 and FY2022 Q1-Q3 as CMS noted this measure as “Not Available”.

³² See Footnote 29.

19. Data on the pricing, quality, and availability of hospital-based physician services.
 [This Item contains proprietary, competitively sensitive information redacted from the public version.]

- Physician Services Pricing and Availability: The gross charges for HMC’s hospital-based physician services are set forth in the HMC CDM. HMC contracts with various commercial health plans, which generally reimburse physician services based on a negotiated fee schedule or percentage discount of gross charges.

Table 19a below identifies Quarter 2 FY2025 volumes and Table 19b the charges for select CPT codes for hospital-based emergency department physician services.

Table 19a: HMC Physician Services – Volume

CPT	Description	Volume													
		Q1 FY22	Q2 FY22	Q3 FY22	Q4 FY22	Q1 FY23	Q2 FY23	Q3 FY23	Q4 FY23	Q1 FY24	Q2 FY24	Q3 FY24	Q4 FY24	Q1 FY25	Q2 FY25

³⁶ See Footnote 28.

³⁷ As a result of the Merger in October 2020, legacy ARMC’s (now HMC-S) CMS Certification Number (“CCN”) was retired, therefore, no data would be in CMS’s database to report for legacy ARMC. Going forward, all data on CMS’s website for Hendrick Medical Center (1900 Pine Street) is combined performance for both HMC and HMC-S.

³⁸ See Footnote 29.

Table 19b: HMC Physician Services – Average CPT Charge

Average CPT Charge															
CPT	Description	Q1 FY22	Q2 FY22	Q3 FY22	Q4 FY22	Q1 FY23	Q2 FY23	Q3 FY23	Q4 FY23	Q1 FY24	Q2 FY24	Q3 FY24	Q4 FY24	Q1 FY25	Q2 FY25

99285	ED Visit and Evaluation – Level 5	\$6,303	\$6,303	\$6,303	\$6,303	\$7,060	\$7,060	\$7,060	\$7,060	\$7,624	\$7,624	\$7,624	\$7,624	\$8,234	\$8,234

- **HMC Physician Services Quality:** The composite Merit-Based Incentive Program (“MIPS”) score serves as an indicator of the quality and cost of physician services. HMC received 93 as a composite MIPS score out of 100 possible points for performance year 2022 (January 1 – December 31, 2022). See below **Table 19c** for historical MIPS scores.

Table 19c: MIPS Score⁴⁰

	Performance Year 2018	Performance Year 2019	Performance Year 2020	Performance Year 2021	Performance Year 2022
<i>Historical MIPS Score</i>					
Hendrick Provider Network	100/100	97/100	94.4/100	94.9/100	93/100

- The 2022 performance year MIPS score was based on four categories, each representing a specific weight of the final composite score: Quality (30%); (ii) Promoting Interoperability (25%); (iii) Improvement Activities (15%); and (iv) Cost (30%).⁴¹ When reporting on the composite score, CMS does not report MIPS scores broken down by category. Additionally, Hendrick Health does not have access to historical MIPS scores for legacy ARMC.

³⁹ CPT 99283 includes SANE (Sexual Assault Nurse Examiner) department charge which are set by the Texas Attorney General. Due to volume fluctuations in the SANE charge mix, the resulting weighted average can fluctuate nominally from quarter to quarter.

⁴⁰ Performance year is January 1 – December 31. Table 19b has been updated from fiscal year to “performance year” for consistency with CMS reporting.

⁴¹ Centers for Medicare Services, Quality Payment Program (<https://qpp.cms.gov/mips/overview>).

20. Data on the consolidation of clinic services, identifying the types of services per county.

- Consolidation of Services: Hendrick Health did not consolidate any clinic services in Q2 FY2025. Hendrick Health continues to evaluate opportunities for service line optimization or consolidation and will note any changes in subsequent reports. Services offered as of Q2 FY2025 by Hendrick Health are outlined in **Attachment 1**.

21. Data indicating how the consolidation of these services improved patient outcomes.

- Impact on patient outcomes: Hendrick Health did not consolidate any clinic services in Q2 FY2025. Hendrick Health continues to evaluate opportunities for service line optimization or consolidation and will note any changes in subsequent reports.

C. *Accessibility*

22. A list of the severe risks described in the application facing Taylor County and an explanation of how the merger led to the mitigation of these risks.

[This Item contains proprietary, competitively sensitive information redacted from the public version.]

- The COPA application described the severe risks facing Taylor County in the context of Hendrick Health’s Community Health Needs Assessment (“CHNA”) from 2019. The CHNA includes a combination of quantitative and qualitative research designed to evaluate the perspective and opinions of community stakeholders and healthcare consumers. The CHNA helps leadership and decision-makers to better understand the needs of the community and address the same through community-based services/programs. In 2022, Hendrick Health completed a new CHNA.⁴² The CHNA identified top community health-related needs or service gaps and categorized them into three priorities:
 - Priority 1 – Access to appropriate care. Community needs addressed include:
 - Affordable prescription drugs
 - Hospital and healthcare staff shortages
 - Coordination of patient care between the hospital and other clinics, doctors, or other health service providers
 - Transportation services for people needing to go to doctor’s appointments or the hospital
 - Education and referrals for financial support and community affordable healthcare services and programs
 - Primary care services such as family doctor or other provider of routine care
 - Priority 2 – Awareness, prevention, and screening. Community needs addressed include:
 - Community awareness of available services and programs
 - Women’s health services
 - Chronic disease case management or “navigators”
 - Chronic disease screenings (e.g., heart disease, stroke, high blood pressure)
 - Programs for diabetes prevention, awareness, and care
 - Affordable prescription drugs
 - Programs for obesity prevention, awareness, and care
 - Priority 3 – Crisis, emergency, and behavioral services (through partnership and collaboration). Community needs addressed include:
 - Mental health services for adults and children
 - Domestic violence and sexual assault prevention, intervention, and care services

⁴² In 2025, Hendrick Health will conduct a new CHNA.

- Healthcare and social services for people experiencing homelessness
- Emergency care and trauma services, including critical care beds
- The Merger has allowed Hendrick Health to continue its focus on impacting the predominant health needs in the community. Hendrick Health is in the process of implementing strategies to address the 2022 CHNA-identified needs. As 2022 CHNA implementation strategies proceed, Hendrick Health will provide more detail. In Q2 FY2025, Hendrick Health engaged in the following initiatives and/or continued from prior quarters:
 - Increasing Access to Care
 - Hendrick Health’s Case Management Department performs an initial assessment of inpatients to screen for needs related to housing, food, transportation, utilities, and other social factors. In general, patients are given resources based on identified needs.
 - Hendrick Health continued recruitment for critical staff to provide the needed care for our community, including primary care and subspecialties. 
 - Hendrick Health recruited specialists to provide needed care for the community. For example, Hendrick Health recently welcomed Dr. Trey Durdin, its first urologist specializing in oncology. Dr. Durdin is fellowship trained in urologic oncology from Memorial Sloan Kettering in New York. With physicians like Dr. Durdin, Hendrick Health can expand service offerings to patients and keep them in the community for specialized care.
 - Hendrick Health continued its ambulance model with a local transport company to transport patients more efficiently within the Hendrick Health system in Abilene (including HMC, HMC-S, Hendrick Medical Plaza, Hendrick Hospice Care, and personal residences in Abilene). Transports commenced at the end of Q2 FY2023, are available from 11:00 a.m. to 11:00 p.m., seven days per week, and will increase access for patients. A coordinator based out of the Hendrick Medical Plaza assists with patient transfers.
 - Hendrick Health previously established transportation services through the Lyft ride share program to ensure patients have access to hospital, physician visits, or other medical appointments after leaving the hospital. Hendrick Health is increasing the use of ride share options, when needed.
 - Hendrick Health worked with the City of Abilene to review options to better support patient access to HMC-S. The Abilene CityLink program created “ZipZone”, which is an on-demand public ridesharing service where riders may request a trip with the zone that transports individuals as directly as possible,

without transfer, to their destination. Potential transportation options are communicated to Hendrick Health's patient population.

- Hendrick Health continues to invest in facility/equipment upgrades and expanded clinical services throughout the Abilene market.
- Hendrick Health has also expanded access in a number of ways, including through its telehealth services [REDACTED] and added surgical and robotic procedures. For example, Dr. Preston Pate performed the first robotic-assisted lung biopsy with ION technology by Intuitive at HMC. In Q2 FY2023, Dr. Steven Smith performed the first single balloon enteroscopy at Hendrick Health.
- Hendrick Health continued use of its previously implemented centralized patient transfer process to streamline patient transfers, which allowed for [REDACTED] inbound transfers during Quarter 2 FY2025 from surrounding cities.
- For patients in the acute care setting without an established primary care provider, Hendrick Health's Case Management Department distributes information to assist patients with obtaining a primary care provider. The information provides a one call number that will allow patients to get an appointment with the first available primary care provider. Hendrick Health maintains a working relationship with the local Federally Qualified Health Center ("FQHC") to have appointments set aside for hospital discharges needing to be seen in a timely manner post-discharge. Patients may also be referred to the Medical Care Mission. Ongoing meetings are held with Hendrick Health's Director of Case Management, Medical Care Mission, and local FQHC to discuss referrals, access, and availability of appointments for patients being discharge from Hendrick Health facilities.
- Hendrick Health continues to invest in its workforce. In October 2023, Hendrick Health's workforce development and HR recruitment teams hosted a Career Advancement Fair to provide information about career paths within healthcare, education routes for different fields, and opportunities for growth within the organization. To help employees reach their full potential, Hendrick Health offers multiple tuition-based programs to help with the cost of continuing education. In addition, Hendrick Health's workforce development team develops partnerships with local community members, academic institutions, students, and current employees to advance careers and professions at Hendrick Health. Hendrick Health offers career incentives for students not employed at Hendrick Health, including scholarships, career journey programs, and a healthcare academy for high school students to gain hands-on experience.
- Hendrick Health developed an action plan to address racial disparities in patient care. Specifically, the mammogram initiative aims to educate non-white Taylor County female residents in this area. A subcommittee of the Employee Racial and Ethnic Diversity Committee was formed and includes a non-white breast cancer survivor and leaders from Hendrick Health admissions, Hendrick Health

mammography, the local Abilene FQHC, the Laura W. Bush Institute for Women’s Health, and the Alliance for Women and Children. The subcommittee provided an educational booth at two community events in 2023, including the Black Chamber of Commerce Health, Fitness, and Business EXPO and Business Mercado. Targeted marketing and physician/staff education plans are being developed to ensure patients are equipped with information regarding funding opportunities for mammograms.

- In February 2024, Hendrick Health opened an additional outpatient laboratory in Abilene, providing enhanced access to patients.
 - In August 2024, Hendrick Center for Rehabilitation (“HCR”) completed major renovations, including: patient rooms, nurses’ stations, dining area, secured outdoor balcony, and expanded rehab gym space. The 31-bed hospital also added state-of-the art equipment, including a vehicle transfer simulator, ZeroG robotic body-weight support system, and Barihab treatment table to assist the bariatric patient population. The renovation allows for a more functional therapy treatment area with the opportunity to serve a wider range of patient diagnoses.
 - Hendrick Health opened a new outpatient pharmacy at HMC-S. Located on the first floor of HMC-S, the pharmacy offers patients being discharged the convenience of having their prescriptions filled before going home, as well as providing outpatient pharmacy services for individuals living or working in South Abilene.
 - Hendrick Health sent card mailers to patients and engaged in other marketing efforts to notify them of open enrollment and resource assistance in this regard. Hendrick Health offered free education and enrollment assistance for Affordable Care Act health insurance plans during open enrollment for 2025 coverage. Certified application counselors were available by appointment to answer questions and assist individuals in applying for insurance plans through the health insurance marketplace.
- Awareness, prevention, and screening for health care needs
- Hendrick Health continues to optimize pharmacy services by adding an outpatient pharmacy inside HMC-S, purchasing an additional delivery vehicle, and recruiting pharmacy couriers for delivery of medication. Pharmacists continue to be an integral part of the team at numerous Hendrick Health locations, including cardiology, pulmonary rehab, and heart failure clinics. Pharmacy staff also provide education sessions to the community at senior living centers and churches.
 - Hendrick Health provides hospital pharmacists, in collaboration with case management, to assist patients by updating home medication lists, reviewing medication and diabetic supply needs, providing education and support, improving adherence and compliance with therapy, removing barriers of access to medications, and facilitating assistance programs before discharge from the hospital. A pharmacist is on-site at the Hendrick Diabetes Center to provide

medication therapy management and drug information and counseling to those patients.

- Hendrick Health continued to offer inpatient diabetes education for new-onset diabetics at both campuses. Additionally, this program has continued to identify pre-diabetes patients in Hendrick Health’s surgical population and educate those patients about the condition/management of the same. In November 2023, the Hendrick Diabetes Center hosted its annual free Diabetes Expo. Hendrick Health presented physician speakers (endocrinologist and podiatrist), along with certified diabetes educators and other healthcare providers with interactive booths for attendees to visit. Hendrick Health also established a weight loss class on the topics of healthy eating and exercise. This class is provided free of charge, based on referral. Hendrick Health also provided various community educational programming for a number of groups. Hendrick Health makes efforts to notify the patients of community programming in this regard and provider outreach for education regarding Hendrick Health services is ongoing.
- To address chronic heart failure patients, Hendrick Health added a new nurse navigator to see all inpatients and follow up with them after discharge to ensure compliance with follow-up appointments, provide education, and serve as a resource. A pharmacist is on-site at Hendrick Heart Failure Clinic to obtain home medication lists, perform medication therapy management, and provide drug information and counseling to those patients.
- Hendrick Health previously established and continues automatic consults for Hendrick pharmacy and pulmonary rehabilitation for patients admitted with Chronic Obstructive Pulmonary Disease (“COPD”). Hendrick Health’s outpatient pharmacy provides quarterly education to pulmonary rehab staff on inhalers and other respiratory medications that are specifically utilized for patients with lung disease. Hendrick Health added a new pulmonary navigator to assist lung disease patients.
- Hendrick Health provides asthma education in area schools, typically for fourth and fifth grade students. Hendrick Health also presents the Better Breathers Club for programming pertinent to pulmonary disease.
- Hendrick Health has put resources towards cancer patients, including nurse navigator assessment of all cancer patients in active treatment, educational chemotherapy classes, social worker assessment of unfunded patients, and over 100 sessions for tobacco cessation.
- Hendrick Health continued with its Patient and Family Advisory Council (“PFAC”) to collaborate with the community to improve each patient’s and family’s experience of Hendrick Health’s services consistent with the organizational mission. PFAC utilizes the experience and skills of patients, families, and caregivers to improve care for all patients. PFAC assists Hendrick Health by identifying

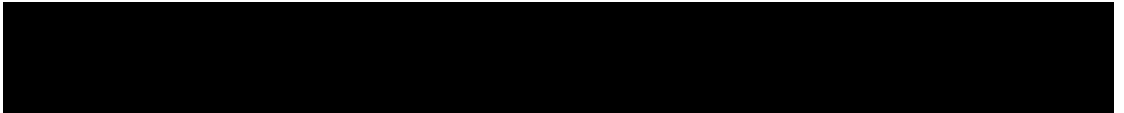

strategies to support patients and families, evaluating quality improvement projects, and establishing patient and family-centered care priorities.

- As previously reported, Hendrick Health continued its expedited process for obtaining emergency detention orders from a local Justice of the Peace in order to appropriately treat inpatients who, because of mental illness, are a substantial risk of serious harm to themselves or to others.
 - Hendrick Health consistently puts on health-related programming for its community. For example, Hendrick Health professionals have participated at trade shows and health fairs, including: Business Expo in Abilene, Spring into Wellness at Texas Tech University Health Sciences Center (“TTUHSC”) Abilene, and the Abilene Black Chamber of Commerce’s Health, Fitness, and Business EXPO as part of Juneteenth celebrations. Also, Hendrick Cancer Center and the ATEMS High School Student Council put on programming to encourage students to avoid electronic cigarettes and other tobacco-related products.
 - To educate the public on knowing what to do in the event of a life-threatening bleed before first responders arrive, Hendrick Health offers Stop the Bleed training. Hendrick Health’s certified instructors conduct free classes at businesses, group meetings, and schools.
 - Hendrick Health has a yearly seasonal partnership to donate vaccines to various organizations in the community to support free influenza clinics. Most recently, Hendrick Health donated 200 doses of the influenza vaccine to the Abilene-Taylor County Health District and 100 doses of the influenza vaccine to the Presbyterian Medical Care Mission. In addition, Hendrick health donated 25 COVID-19 tests to City Light Ministries.
 - Colorectal cancer is the second leading cause of cancer-related deaths in the United States. To help with early detection of colorectal cancer, Hendrick Cancer Center offered free fecal immunochemical tests (“FIT”) for individuals meeting an assessment criterion.
 - In October 2024, Hendrick Health hosted a free community event in Abilene on the differences and benefits of Medicare and Medicare Advantage plans. Approximately 200 individuals attended the event. Participants received general information about Medicare plan options based on choice, cost, and coverage. Hendrick Health representatives were available at the event to answer questions.
 - Hendrick Health also puts resources into other community outreach and initiatives, include: Town and Country Women’s Fair, Haskell Memorial Hospital Health Fair, Abilene Business Expo, Heart Health Symposium West Texas AHEC, Spring Into Wellness with KTXS and Texas Tech, etc.
- Crisis, emergency, and behavioral services
- Partially due to the COVID-19 pandemic, Hendrick Health placed more emphasis on and invested in telehealth services, [REDACTED]

- Expansion of Peripherally Inserted Central Catheter (“PICC”) Services at HMC-S;
- Expansion of Clinical Pharmacy Services at HMC-S through the addition of an onsite Clinical Pharmacist, placing transitional care pharmacists on the nursing unit at HMC-S seven days per week, worked to streamline the discharge process as it relates to prescriptions, installed new laminar flood hood at HMC-S to mirror operations and processes at HMC, and updated the Pyxis Enterprise server;
- Expansion of Tele-Sitter Program to HMC-S;
- Expansion of inpatient diabetes education to HMC-S;
- Continued use of a centralized patient transfer center allowing for the acceptance of more patient transfers to Hendrick Health;
- Combined and coordinated resources to develop a more efficient COVID-19 vaccine distribution process in the 24-county region served by Hendrick Health;
- Continued physician recruiting efforts, [REDACTED]
[REDACTED]
- Added neurosurgery outreach clinic in Colorado City and a nephrology outreach clinic in Haskell;
- Continued Camp Courage through Hendrick Hospice Care for children and teens entering third through 12th grade who have experienced the death of a loved one;
- Attained laboratory accreditation through the College of American Pathologists (“CAP”) at HMC-S;
- Added a second linear accelerator at the Hendrick Cancer Center;
- Developed a leased ambulance model with a local transport company to transport patients more efficiently within the Hendrick Health system in Abilene (including HMC, HMC-S, Hendrick Medical Plaza, Hendrick Hospice Care, and personal residences in Abilene);
- Expanded access to various surgical, robotic, and other procedures;
- Added the new SIGMA Architect 3.0T MRI to its service line at HMC, which offers superior imaging quality, patient comfort, and shorter scan times, improving the overall patient experience;
- Established transportation services through the Lyft ride share program to ensure patient access to various venues of care;
- Invested in facility updates at HMC-S, including renovations in the ICU;
- Initiated a global clinical trial to evaluate safety and efficacy of Alleviant’s No-Implant Interatrial Shunt Creation;
- Launched the Hendrick Lung Nodule Program to provide timely screenings for early detection of potential lung malignancies, a streamlined process of diagnosis and treatment, as well as access to oncology services and to thoracic robotic-assisted surgery;
- Added interventional radiology services, including: Y-90 mapping and radio embolization, Transjugular intrahepatic portosystemic shunt (“TIPS”), atherectomy and thrombectomy

of peripherals, radiofrequency ablation in conjunction with kyphoplasty, and placement of nephroureteral catheters;

- Increased capacity for sleep studies;

- 
- Added Capnostream and pulse oximetry monitors in various places at HMC and HMC-S;
 - Implemented new diagnostic capabilities of the Coroventis CoroFlow Vascular System for patients suffering from chronic angina caused by coronary microvascular dysfunction (“CMD”);
 - Began utilizing the Impella RP Flex with SmartAssist, one of the world’s smallest heart pumps;
 - Added a new C-arm and mobile digital radiology machine at HMC-S;
 - Opened an additional outpatient laboratory in Abilene, providing enhanced access to patients;
 - Added treatment for stroke patients using Penumbra’s mechanical thrombectomy system to offer quick and efficient removal of blood clots in the brain;
 - Launched the sustained low-efficiency dialysis (“SLED”) program at HMC-S, allowing providers to dialyze sicker patients in the HMC-S Critical Care Unit (“CCU”);
 - Installed a new CT scanner at HMC-S;
 - Became the first in Texas to implant a dissolvable stent below the knee;
 - Added breakthrough treatment for obstructive sleep apnea (“OSA”) for patients in the region who have not been successful using the continuous positive airway pressure (“CPAP”) system.
 - Renovated Hendrick Center for Rehabilitation (“HCR”) to include, among other things, state-of-the-art equipment (vehicle transfer simulator, ZeroG robotic body-weight support system, and Barihab treatment table for assistance with bariatric patients);
 - Opened a new outpatient pharmacy at HMC-S; and
 - Performed the first minimally invasive tricuspid edge-to-edge repair (“TEER”) procedure at HMC and in the region.

24. Data illustrating the impact to patient wait times, including emergency department wait times, before and after the merger.

- Emergency Department Wait Times: Average Emergency Department (“ED”) wait times for HMC are provided below in **Table 24a**. For the CMS data released in Q2 FY2025, Hendrick Health’s average ED wait time was 133 minutes, compared to the national benchmark of 191 minutes (data reporting period for April 1, 2023 through March 31, 2024).

- For purposes of this Report, average ED wait time is defined as the median time from arrival at the ED until time of discharge for outpatient ED patients. HMC (with HMC-S) was considered a “Very High” volume hospital because its ED patient volume is estimated to be over 60,000 annually. In the CMS data released during Q2 FY25, HMC’s ED wait times remained below the national median time for “Very High” volume hospitals. See **Table 24b** for historical ARMC/HMC-S data.
- Post-merger, HMC-S continued to utilize MedHost, the EMR in place under the former owner, CHS. In late fiscal year 2021, HMC-S went live with Allscripts (now Altera Digital Health) and no data on wait times is available to harvest from the legacy MedHost system. Since the EMR conversion, Hendrick Health has worked with its new independent ED provider group (Team Health) to further calibrate the calculation and reporting of ED wait times across the merged health system.
- Hendrick Health does not track any other patient wait times in the ordinary course of business.

Table 24a: HMC Average ED Wait Times

Table 24b: HMC-S Average ED Wait Times⁴³

25. Data demonstrating any expansion in service delivery since the merger.

[This Item contains proprietary, competitively sensitive information redacted from the public version.]

- As of the end of Q2 FY2025, Hendrick Health increased access to healthcare services for patients in its communities through the following initiatives to expand service delivery:
 - **Patient transfers to Hendrick Health:** Through the continued use of a centralized patient transfer center, Hendrick Health now has the ability to accept more patient transfers to both HMC and HMC-S than was possible prior to the Merger.
 - **Physician recruiting:** [REDACTED]

26. Data and financial reports regarding infrastructure investment, capital expenditures, and operating costs since the merger.

[This Item contains proprietary, competitively sensitive information redacted from the public version.]

- **Infrastructure Investment and Capital Expenditures:** During the Second Quarter FY2025, Hendrick Health invested approximately \$12.4 million in capital and infrastructure expenditures as a combined health system. **Table 26a** shows a combined summary of quarterly capital, infrastructure, and operating expenditures for prior reporting periods compared to the Second

⁴³ As a result of the Merger in October 2020, legacy ARMC’s (now HMC-S) CMS Certification Number (“CCN”) was retired, therefore, no data would be in CMS’s database to report for legacy ARMC. Going forward, all data on CMS’s website for Hendrick Medical Center (1900 Pine Street) is combined performance for both HMC and HMC-S.

Quarter FY2025 for Hendrick Health. **Table 26b** shows the expenditures by facility. **Table 26c** shows a detailed breakout of capital expenditures for Second Quarter FY2025, by facility.

Table 26a: Capital, Infrastructure and Operating Expenditures – Hendrick Health⁴⁴

Hendrick Health	Q1 FY21	Q2 FY21	Q3 FY21	Q4 FY21
Capital Expenditures	\$6,040,340	\$7,659,424	\$10,295,638	\$7,100,841
Infrastructure Expenditures	\$1,986,273	\$770,391	\$349,032	\$1,193,002
Operating Expenditures	\$123,982,728	\$129,478,930	\$138,592,951	\$153,563,078
	Q1 FY22	Q2 FY22	Q3 FY22	Q4 FY22
Capital Expenditures	\$6,752,296	\$5,415,146	\$8,289,552	\$10,437,564
Infrastructure Expenditures	\$755,318	\$507,270	\$921,737	\$623,324
Operating Expenditures	\$153,482,593	\$153,422,084	\$160,692,221	\$154,688,013
	Q1 FY23	Q2 FY23	Q3 FY23	Q4 FY23
Capital Expenditures	\$9,730,513	\$9,376,774	\$7,354,130	\$14,349,709
Infrastructure Expenditures	\$1,225,641	\$1,547,366	\$1,343,627	\$3,843,972
Operating Expenditures	\$157,470,640	\$161,178,330	\$164,911,488	\$164,706,163
	Q1 FY24	Q2 FY24	Q3 FY24	Q4 FY24
Capital Expenditures	\$10,497,442	\$9,645,324	\$12,534,914	\$10,726,309
Infrastructure Expenditures	\$1,996,407	\$2,912,614	\$2,774,984	\$2,532,800
Operating Expenditures	\$165,729,895	\$178,545,359	\$180,141,278	\$197,507,010
	Q1 FY25	Q2 FY25		
Capital Expenditures	\$8,557,552	\$12,442,091		
Infrastructure Expenditures	\$1,022,670	\$1,369,726		
Operating Expenditures	\$183,082,797	\$184,007,135		

⁴⁴ "Infrastructure Expenditures" are included within "Capital Expenditures" line in Table 26a.

⁴⁵ "Infrastructure Expenditures" are included within "Capital Expenditures" line in Table 26b.

Total	\$12,442,091.44

27. Evidence of any expansion of clinical services.

[This Item contains proprietary, competitively sensitive information redacted from the public version.]

- Hendrick Health is in the process of thoughtfully evaluating clinical services across HMC and HMC-S for clinical optimization and/or expansion opportunities. As of the end of Quarter 2 FY2025, Hendrick has identified the following potential opportunities:
 - **Patient transfers to Hendrick Health:** Through the continued use of a centralized patient transfer center, Hendrick Health now has the ability to accept more patient transfers to both HMC and HMC-S than was possible prior to the Merger.
 - **Physician recruiting:** [REDACTED]

28. A copy of each hospital's charity care policy, identifying any changes to the policy in the previous quarter.

- No changes were made to Hendrick Health's charity care policy in Q2 FY2025.

29. The number of patients enrolled in each hospital's charity care program in the past quarter.

- During Q2 FY2025, Hendrick Health enrolled 2,926 patients in charity care and financial assistance programs see **Table 29**).

Table 29: Count of Patients Enrolled in Charity Care

	Q1 FY21	Q2 FY21	Q3 FY21	Q4 FY21	Q1 FY22	Q2 FY22	Q3 FY22	Q4 FY22	Q1 FY23	Q2 FY23	Q3 FY23	Q4 FY23	Q1 FY24	Q2 FY24	Q3 FY24	Q4 FY24	Q1 FY25	Q2 FY25
Charity Care Patients																		
HMC	2,729																	
HMC-S (Legacy ARMC)	842	3,103	3,773	3,542	3,026	3,013	4,188	4,304	3,494	3,107	3,745	3,925	3,697	3,723	4,103	6,444	4,013 ⁴⁶	2,926

- Post-Merger, Hendrick Health’s Charity Care Policy now applies to HMC-S. Because charity applications and payments are retroactive, certain patients are re-classified as charity patients and will be reported on in future submissions.
- The Hendrick Health charity care policy is more inclusive than the legacy ARMC policy due in part to the following reasons:
 - The Federal Poverty Level threshold of Hendrick Health’s Charity Care Policy is higher (400%) than legacy ARMC’s Charity Care Policy (300%).
 - Hendrick Health patients become eligible at 20% of annual gross income (“AGI”), whereas legacy ARMC patients became eligible at 50% of AGI.
 - Legacy ARMC’s Charity Care Policy only applied to uninsured patients, whereas Hendrick Health’s Charity Care Policy applies to uninsured and certain insured patients.

30. Data and financial reports for charity care services provided by each hospital in the previous quarter.

[This Item contains proprietary, competitively sensitive information redacted from the public version.]

- The combined financial investment in charity care of \$26.8 million for both HMC and HMC-S for Q2 FY2025 is shown below in **Table 30**. Notably, most of the charity care assigned occurs after care has already been provided, which means charity is typically approved 90 to 120 days post-discharge.
- As a result of the Merger, Hendrick Health is now maintaining charity care amounts as a combined total for HMC and HMC-S. Therefore, going forward, this data will reflect combined performance.

⁴⁶ Revised figure accounts for reclassification of patients.

Table 30: Charity Care⁴⁷

- In addition to charity care, Hendrick Health provided approximately \$31.6 million in uninsured patient discounts during Q2 FY2025.

31. Data demonstrating clinical integration between facilities and providers and whether such integration led to cost savings or a reduction in medical errors.

[This Item contains proprietary, competitively sensitive information redacted from the public version.]

- As discussed in this Report, Hendrick Health continuously evaluates opportunities for clinical integration. As of the end of Quarter 2 FY2025, Hendrick Health has implemented the following initiatives that will increase clinical integration between the facilities and providers:
 - **Coordination of Inpatient Capacity:** During Quarter 2 FY2025, Hendrick Health faced capacity limits, at both HMC and HMC-S, and relieved capacity by transferring patients to the other campus for care. The community had increased access to care when they may otherwise have been waiting at one of the campuses.
 - **Unified Organizational Structure:** Hendrick Health with its organizational chart across HMC and HMC-S to provide increased integration of staffing, policy/procedures, and processes across both campuses.
 - **Centralized transfer center:** Hendrick Health continued use of its centralized transfer center, developed post-Merger, to better coordinate patient transfer requests from surrounding hospitals. The centralized process allows Hendrick Health to better coordinate services and access across its campuses as well as increase patient transfers into the system.

⁴⁷ The Q1 FY25 charity care amount was revised to \$26.7 million to account for reclassification of patients.

- **Clinical labor float pool:** Hendrick Health has continued to develop a pool of shared clinical employees across HMC and HMC-S, *i.e.*, a float pool, to address the staffing needs of each campus. The float pool will ensure the resources are available across both campuses. Other individual departments also evaluate when their staff can float between HMC and HMC-S. In addition, as noted above, calls are conducted twice daily between HMC and HMC-S to prevent holds in the emergency departments and to address staff sharing to improve capacity across the system.
- **Ambulance model:** Hendrick Health continued its leased ambulance model with a local transport company to transport patients more efficiently within the Hendrick Health system in Abilene (including HMC, HMC-S, Hendrick Medical Plaza, Hendrick Hospice Care, and personal residences in Abilene). Transports commenced at the end of Q2 FY2023, are available from 11:00 a.m. to 11:00 p.m., seven days per week, and will increase access for patients. A coordinator based out of the Hendrick Medical Plaza assists with patient transfers.
- **Quality of Care Committees:** Hendrick Health continued to utilize its combined medical staff, nursing workforce, and ancillary staff to establish and execute various integrated committees, a few of which are described below, to improve the quality of care for the community and to strive toward integrated processes and procedures.
- **Combined Operations and Executive Staff Meetings:** Regular Joint Abilene Operations Meetings and Joint Abilene Executive Staff Meetings continued in an effort to streamline leadership reporting, communication, and responsibilities across both campuses.
- **Operating Room (“OR”)/Surgical Committee:** As previously reported, an OR/Surgical Committee was created at HMC-S to establish a process for evaluating metrics and efficiencies related to surgical services. This committee rolls up to the Medical Advisory Committee at HMC-S, which rolls up to the Medical Executive Committee for the Abilene market, increasing communication and streamlining processes across both campuses under the same medical model. Recurring meetings are held by the OR/Surgical Committee.
- **Streamlined policies and procedures:** Hendrick Health engaged a firm to provide a new Policy and Procedure Coordinator to streamline all written policies across the market and to develop a newly revised joint Policy Review Committee.
- **Operating reviews:** Hendrick Health implemented regular operating reviews for all departments in the Abilene market. Department leadership analyzes efficiencies, expenses compared to budget, and adjusts when necessary to ensure good stewardship of financial and operational resources.

32. A description of how the merger has impacted rural healthcare in the hospitals' 24-county service area during the previous quarter, including any reduction in services.

[This Item contains proprietary, competitively sensitive information redacted from the public version.]

- As a result of the Merger, during Quarter 2 FY2025, Hendrick Health was able to further enhance and increase the services offered to the hospitals' rural communities, including the following:
 - As discussed in this Report, Hendrick Health continued improving its centralized transfer center to coordinate transfer requests from surrounding rural hospitals to any of the three Hendrick Health campuses. This unified process and single transfer line has improved access to more local care for patients and hospitals in Hendrick Health's service area. The centralized transfer center allows Hendrick Health to accept more patient transfers, which enables patients to receive care more quickly and closer to home than they would have previously received. In Quarter 2 FY2025, Hendrick Health accepted [REDACTED] inbound transfer patients.
 - Hendrick Health continued its support to rural hospitals through affiliation agreements, including assistance with physician recruitment, continuing education opportunities, leadership training and mentoring, staff training opportunities, and program development assistance and advice. In Q2 FY2025, Hendrick provided the following continuing education to surrounding facilities/providers:
 - Practice Management Institute – Medicare & Compliance Changes (December 2024)
 - Practice Management Institute – CPT Code Update (December 2024)
 - Grand Rounds – Pre-Anesthesia Testing Guidelines (January 2025)
 - Practice Management institute – Collections for Medical Office Professionals (February 2025)
 - Hendrick Health Heart and Vascular Symposium – The Cardiac Round-Up – CME Available (February 2025)
 - Strategic Partner with the Texas Rural Health Association (Ongoing)
 - Regional Hospital Administrator Meeting (Monthly)
 - Hendrick Regional Update Call (Monthly)
 - Texas Workforce Commission Skills for Small Business Training Grants for Your Practice (Ongoing)
 - Pre-Hospital Committee AMI/Stroke/Trauma Regional Meeting (Monthly)

- Enduring CME continues to be available via the Hendrick CME Portal
 - Hendrick Health continued to provide ambulatory telehealth services, including primary and other non-emergency care services, to patients in the surrounding area. In Quarter 2 FY2025, Hendrick Health provided care to 1,859 patients through its virtual care platforms. Telehealth capabilities remain available and are utilized by patients choosing that method of care. In addition, as previously discussed, Hendrick Health also has tele-psych and tele-neurology services through third party providers.

33. A list of health plans each hospital contracted with before the merger, an explanation of any change to the accepted health care plans after the merger, and a list of health plan contracts terminated since the merger.

- Table 38 of the Baseline Performance Report shows a list of the health plans each hospital contracted with during fiscal year 2019. **Table 33** lists the health plans Hendrick Health contracted with as of Quarter 2 FY2025, which have remained unchanged from the previous report.

34. Data identifying changes to service levels at the hospitals and at other facilities, including service levels available to the public and any reduction in service levels available to the public.

[This Item contains proprietary, competitively sensitive information redacted from the public version.]

- **Table 34** includes the pre- and post-Merger service levels for both HMC and HMC-S (legacy ARMC) for the Emergency Department (“ED”)/Trauma, Neonatal Intensive Care Unit (“NICU”), and

Maternal Fetal Medicine (“MFM”) care. As of Quarter 2 FY2025, service levels at HMC-S are as follows:

- **ED/Trauma:** The post-Merger change of ownership process required HMC-S to re-apply for Level 4 ED/trauma status (which requires an on-site survey). Due to the scheduled EMR conversion (reported on in Quarter 4 FY2021), Hendrick Health was advised to hold and have a minimum of six months of consistent EMR data for surveyors’ review. Thereafter, HMC-S went through the survey process and, in Q1 FY2023, obtained the Level 4 designation. [REDACTED]
- **NICU:** As a result of the change in ownership through the Merger, the NICU at HMC-S moved from a Level 2 to a Level 1 designation. Hendrick Health went through the survey process and, in Q4 FY2023, attained a Level 2 NICU designation at HMC-S.
- **MFM:** Hendrick Health pursued a Level 1 MFM designation for HMC-S, as described in the Quarter 2 FY2021 Performance Report, and successfully received the designation in Quarter 3 FY2021. This level has been maintained in Quarter 2 FY2025. Achievement of Level 1 MFM designation allows Hendrick Health to be a better steward of ensuring all relevant policies and procedures are consistent with current standards of maternal practice, enabling early identification and diagnoses of at-risk populations, and providing treatments to reduce morbidity and mortality.

Table 34: Pre- and Post-Merger Key Service Levels

Location	Pre-Merger Service Level (FY2020)			Q2 FY2021 Service Level			Q3 FY2021 Service Level			Q4 FY2021 Service Level

35. Data illustrating the organizations’ payment models.

- Hendrick Health currently participates in the payment models listed in **Table 35** below, which have remained unchanged from the Baseline Performance Report.

Table 35: Hendrick Health Payment Models as of Quarter 2 FY2025⁴⁸

Payment Models
APR-DRG/MS-DRG
Case Rate
Medicare Fee Schedules
Percent of Billed Charge
Per Diem
Texas Medicaid Fee Schedules

36. Data demonstrating the payment models established since the merger in comparison to payment models before the merger.

- As of Quarter 2 FY2025, no new payment models have been established since the Merger.

⁴⁸ Excludes workers compensation payment models.

D. Competition

37. Data demonstrating the merger did not reduce competition among physicians, allied health professionals, other health providers, or any other persons providing goods and services with the hospitals.

- HMC and HMC-S face competition from a number of hospitals and health systems. Post-Merger, Hendrick Health continues to compete with large and significant health systems throughout the region, most of which are gaining strength. The robust competition for inpatient hospital services will continue from at least 24 other hospitals, listed below. Likewise, Hendrick Health also faces competition from freestanding emergency departments, urgent cares, ambulatory surgery centers, rural health clinics, and other healthcare providers located in Taylor County and the surrounding counties.

Hendrick Health will continue to compete with the large health systems in the region, including without limitation:

1. University Health System in San Antonio
2. Houston Methodist – The Woodlands
3. Parkland Health & Hospital System
4. Texas Health Harris Methodist Hospital Alliance
5. Texas Health Resources
6. Baylor Scott & White Health System
7. St. David’s HealthCare
8. UMC Health System
9. Covenant Health System
10. United Regional HealthCare System
11. Cook Children’s Health Care System

One method to measure Hendrick Health’s market is to look at Core-based Statistical Areas (“CBSAs”) located within a 150-mile radius, specifically the Medicare Inpatient Prospective Payment System (“IPPS”) hospitals within those CBSAs that are most similar to Hendrick Health based on gross charges (Critical Access Hospitals excluded). Using that methodology, Hendrick Health competes with the following inpatient acute facilities, without limitation:

1. AdventHealth Rollins Brook Community Hospital; 608 N Key Ave., Lampasas, TX 76550; Lampasas County
2. Anson General Hospital; 101 Ave. J, Anson, TX 79501; Jones County
3. Ballinger Memorial Hospital; District 608 Ave. B, Ballinger, TX 76821; Runnels County
4. Cogdell Memorial Hospital; 1700 Cogdell Blvd., Snyder, TX 79549; Scurry County
5. Coleman County Medical Center; 310 S Pecos St., Coleman, TX 76834; Coleman County
6. Comanche County Medical Center; 10201 TX-16, Comanche, TX 76442; Comanche County
7. Eastland Memorial Hospital; 304 S Daugherty Ave., Eastland, TX 76448; Eastland County

Additionally, the following is a non-exhaustive list of “freestanding healthcare facilities” in the primary and secondary service area, sorted by county, that Hendrick Health will continue to compete with:

Primary Service Area

Callahan County

- Baird Community Health Center; 128 W 4th St., Baird, TX 79504

Jones County

- Anson Family Wellness Clinic; 215 N Ave. J, Anson, TX 79501
- Hamlin Medical Clinic; 350 NW Ave. F, Hamlin, TX 79520
- Stamford Family Health Clinic; 1303 Mabee St., Stamford, TX 79553

Taylor County

- Abilene Cataract & Refractive Surgery Center; 2120 Antilley Rd., Abilene, TX 79606
- Abilene Center for Orthopedic and Multispecialty Surgery, LLC; 6449 Central Park Blvd., Abilene, TX 79606
- Abilene Community Health Center; 1749 Pine St., Abilene, TX 79601
- Abilene Diagnostic Clinic; 1665 Antilley Rd. 314, Suite 200, Abilene, TX 79606

- Abilene Endoscopy Center ; 1249 Ambler Ave., Suite 100, Abilene, TX 79601
- Abilene Surgery Center LLC; 5601 Health Center Dr., Abilene, TX 79606
- Abilene Taylor County Public Health District; 850 N 6th St., Abilene, TX 79601
- Abilene White Rock Surgery Center, LLC; 2401 N Treadaway Blvd., Abilene, TX 79604
- Vital Care Urgent Care Clinic; 4009 Ridgemont Dr., Abilene, TX 79606
- Vital Care Urgent Care Clinic; 3101 S 27th, Abilene, TX 79605
- ELM Place Ambulatory Surgical Center; 2217 S Danville Dr., Abilene, TX 79605
- Express ER, 4157 Buffalo Gap Rd.; Abilene, TX 79605
- Fresenius Kidney Care – Abilene South; 2009 Hospital Pl., Abilene, TX 79606
- Fresenius Kidney Care – Abilene Lone Star; 349 S Danville Dr., Abilene, TX 79605
- Fresenius Kidney Care – Abilene; 1802 Pine St., Abilene, TX 79601
- Medical Diagnosing Imaging of Abilene; 4349 S Treadaway Blvd., Abilene, TX 79602
- My Emergency Room 24/7; 4438 S Clack St., Suite 100, Abilene, TX 79606
- My Primary Care; 3347 S 2nd St, Suite 100, Abilene, TX 79605
- NextCare/Dr. J’s Urgent Care: Catclaw; 3802 Catclaw Dr., Abilene, TX 79606
- NextCare/Dr. J’s Urgent Care: Highway 351; 1634 TX-351, Abilene, TX 79601
- Texas Midwest Endoscopy Center LLC; 14 Hospital Dr., Suite B, Abilene, TX 79606
- Walk-In Care Clinic; 1665 Antilley Rd., Suite 120, Abilene, TX 79606

Secondary Service Area

Brown County

- Accel Health Clinic Brownwood; 3804 US-377, Brownwood, TX 76801
- Brownwood Women’s Clinic; 98 S Park Dr., Brownwood, TX 76801
- Central TX Women’s Clinic PA; 2201 Coggin Ave, Suite B, Brownwood, TX 76801
- Fresenius Kidney Care – Brownwood Renal Care Center; 110 South Park Dr., Brownwood, TX 76801
- One Source Health Center - Early; 2005 Hwy. 183 N, Early, TX 76802

Coleman County

- Coleman WIC Clinic; 303 E College Ave., Coleman, TX 76834
- Coleman Medical Associates; 310 S Pecos St., Coleman, TX 76834

- Hensely Family Health Clinic; 105 N 2nd St., Santa Anna, TX 79606

Comanche County

- Doctors Medical Center; 10201 Hwy. 16, Comanche, TX 76442

Eastland County

- Eastland Dialysis Center; 2300 W Commerce St., Eastland, TX 76448

Fisher County

- Clearfork Health Center; 774 TX-70, Rotan, TX 79546
- Roby Rural Health Clinic; 117 E North 1st St., Roby, TX 79543

Hamilton County

- Hamilton Family Practice Rural Health Clinic; 303 N Brown St., Hamilton, TX 76531
- Hico Clinic; 104 Walnut St., Hico, TX 76457

Haskell County

- Haskell Rural Health Clinic; 1417 N 1st St., Suite A, Haskell, TX 79521

Kent County

- Kent County Rural Health; 1447 N Main St., Jayton, TX 79528

Knox County

- Knox County Clinic; 712 SE 5th St., Knox City, TX 79529
- Munday Clinic; 120 E D St., Munday, TX 76371

Lampasas County

- AdventHealth Family Medicine Clinic - Lampasas; 187 Private Rd. 3060, Lampasas, TX 76550
- Fresenius Kidney Care – Lampasas; 1202 Central Texas Expressway, Lampasas, TX 76550
- Seton Lampasas Healthcare Clinic; 1205 Central Texas Expressway, Lampasas, TX 76550

McCulloch County

- Brady Medical Clinic; 2010 Nine Rd., Brady, TX 76825

Mills County

- Coryell Health Medical Clinic – Mills County; 1510 Hannah Valley Rd., Goldthwaite, TX 76844
- Family Practice Clinic of Mills County; 1501 W Front St., Goldthwaite, TX 76844

3. Texas Oncology – Abilene; 1957 Antilley Rd., Abilene, TX 79606
4. Tim Martin M.D. (Independent Physician Office); 2110 N Willis St., Suite B, Abilene, TX 79603

38. Evidence of how patient choice is being preserved.

- The patient choice policy for Hendrick Health was extended post-Merger to encompass both HMC and HMC-S. The policy continues to conform with CMS mandated patient choice requirements. If any changes are made, Hendrick Health will provide the revised policy in future submissions.

39. Evidence reflecting efforts to bring additional jobs to the area.

[This Item contains proprietary, competitively sensitive information redacted from the public version.]

- Open positions: During Quarter 2 FY2025, Hendrick Health posted 470 job openings. These roles cover both clinical and non-clinical positions across the organization and indicate significant demand for talent within the combined Hendrick Health system. The list of open positions as of the end of Quarter 2 FY2025 is provided in **Attachment 2**, which includes a mix of vacant positions and new positions.
- Recruitment efforts: Hendrick Health continues to use various resources to recruit medical providers to the community. In Quarter 2 FY2025, Hendrick Health continued to use multiple online recruitment platforms to disseminate job postings for physician and nursing positions. Hendrick Health also partnered with recruitment firms and circulated open job positions through email blasts to current employees.
- Hendrick Health continues to invest in its workforce. To help employees reach their full potential, Hendrick Health offers multiple tuition-based programs to help with the cost of continuing education. In addition, Hendrick Health’s workforce development team develops partnerships with local community members, academic institutions, students, and current employees to advance careers and professions at Hendrick Health. Hendrick Health offers career incentives for students not employed at Hendrick Health, including scholarships, career journey programs, and a healthcare academy for high school students to gain hands-on experience.
- In Quarter 2 FY2025, the Medical Staff Development Committee of Hendrick Health continued to evaluate the physician to population ratios, ER call coverage, and appointment wait times to determine gaps in coverage and needs for the service area. [REDACTED]

- *New hires:* In addition, during Quarter 2 FY2025, Hendrick Health hired 236 new employees in the Abilene market.
- In its first full year of operation, Hendrick Health’s Workforce Development team made significant progress in promoting rewarding careers in healthcare. The team developed a pipeline of 182 students who are committed future Hendrick employees, including 120 nursing students, six pharmacists, and four therapists. Enrollment in the Healthcare Academy, offered to high school students in conjunction with Cisco College, increased from 64 in the inaugural year to 222 the second year. The team also facilitated for high school student micro-internships in the Facilities Management Department. In total, Workforce Development had more than 4,750 contacts with students, schools, and universities to get the word out about career opportunities at Hendrick Health.
- Hendrick Health earned the 2025 Gallup Exceptional Workplace Award for the 19th year in a row, making it the only healthcare organization to achieve this honor. In addition, Hendrick Health is only one of two companies worldwide to be recognized as one of the most engaged workplace cultures for all 19 years of the award. This award is designed to identify excellence and celebrate organizations who incorporate employee engagement into their culture.

40. Any contracted services that have changed since the last report, with an explanation for each change.

[This Item contains proprietary, competitively sensitive information redacted from the public version.]

- As of the end of Quarter 2 FY2025, Hendrick Health is continuing the process of evaluating potential alignment opportunities. [REDACTED]
[REDACTED] Hendrick Health will continue to evaluate potential contract alignment opportunities through the post-Merger integration process and will provide updates in subsequent reports once more information becomes available.

41. Data illustrating physician contracts for each county in the region specifying the physician specialty or practice area for each contract.

- **Table 41** lists the specialty and county location for the 122 physicians Hendrick Health employed during Quarter 2 FY2025. The region is also served by community physicians not employed by Hendrick Health. While Hendrick Health does not maintain a comprehensive directory of these community physicians beyond those with medical staff privileges at Hendrick Health (discussed in **Item 44** of this Report), public sources that identify community physicians including the Texas Medical Board Healthcare Provider Search and health plan provider directories are available.

E. Other Requirements

42. Any minutes or notes of meetings regarding the COPA and the portion of each hospital’s governing body meeting minutes that discuss the COPA.

- Meeting Minutes: To the extent meeting minutes or notes regarding the COPA, including portions of governing body meeting minutes that discuss the COPA, are kept in the ordinary course of business, and to the extent no applicable privileges exist, such documentation has been provided in **Attachment 3**.

43. Any healthcare-related service contract changes in the previous quarter and the explanation for the change.

[This Item contains proprietary, competitively sensitive information redacted from the public version.]

- Changes to Contracted Health Care Services: As noted in the Baseline Performance Report, HMC and legacy ARMC maintained agreements with a variety of third-party service providers to support their operations. Following the Merger, Hendrick Health began the process of evaluating such services to identify potential alignment opportunities across the legacy organizations. [REDACTED]

- Hendrick Health will continue to evaluate potential healthcare-related service contract alignment opportunities through the post-Merger integration process and will provide updates in subsequent reports once more information becomes available.

44. The number of physicians, allied professionals, and other health care providers providing medical services that have privileges to practice at the hospital.

- Privileged Providers: A complete list of physicians, allied professionals, and other healthcare providers with privileges at Hendrick Health is provided in **Attachment 4** to this Report. As of the end of Quarter 2 FY2025, Hendrick Health provided privileges to 719 providers at HMC and 627 providers at HMC-S, as detailed in **Table 44** below. Note, some providers have privileges at both HMC and HMC-S.

Table 44: Hendrick Health Privileged Providers as of Quarter 2 FY2025

Privileged Provider Category	HMC	HMC-S
Physicians	509	454
Advanced Practice Providers	210	173
Total	719	627

45. Information on additional investments regarding infrastructure, capital expenditures, and operating costs and how this affected patient care outcomes, population access to health care, and prevention services.
- As discussed in this Report, Hendrick Health continues to invest in the combined health system, thereby improving patient care and access, as illustrated by the following infrastructure, capital, and operating investments:
 - Infrastructure Investment and Capital Expenditures: During Quarter 2 FY2025, Hendrick Health invested approximately \$12.4 million in capital expenditures as a combined health system, including various infrastructure updates, equipment, etc.
 - Cost Savings Reinvestment: During Quarter 2 FY2025, Hendrick Health continued reinvesting in the combined healthcare system, with the goal of improving the overall patient experience and patient care, including: investment in machines/equipment, facility upgrades at HMC-S, and health-related priorities of the community.
 - Coordination of Services: Throughout Quarter 2 FY2025, Hendrick Health continued to enhance the coordination of services to increase clinical integration, standardization, and quality of care across both campuses through the following: coordination of inpatient capacity to increase access to care for the community and utilization of centralized transfer center, leading to more patients remaining in the community for care.
